

What Vaccines Does My Horse Need?

All horses should be vaccinated every spring against the five core diseases.¹

Core EQ Innovator® The only vaccine for all five core diseases in a single injection.

Rabies – 100% fatal¹

Acquired through the bite of an infected animal.

Tetanus – 75% fatal²

Caused by bacteria present in soil that can contaminate open wounds.

Eastern Equine Encephalomyelitis – 90% fatal¹

Transmitted to horses by mosquitoes that have fed on infected wild birds.

West Nile – 33% fatal¹

Acquired through the bite of a mosquito that previously fed on an infected bird.

Western Equine Encephalomyelitis – 50% fatal¹

Like Eastern equine encephalomyelitis, transmitted through the bite of an infected mosquito.

Talk to your veterinarian about other vaccinations your horse may need based on their unique lifestyle.

Equine Influenza

- Travels
- Contact with horses that travel
- Geriatric

Equine Herpesvirus

- Travels
- Contact with horses that travel
- Boarded
- Geriatric
- Pregnant mare (5th, 7th and 9th month of pregnancy)
